

# Test Socket

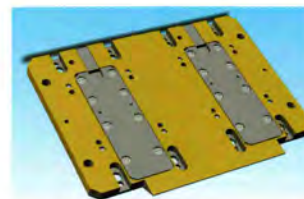

- Correspond to lead-free applications
- Small solder migration → Less variation in resistance in analog testing
- Long life & Robust → Reducing downtime
- Provide test solutions meeting customer needs

4site Kelvin Strip Socket

PATENT NO. JP3326095, US6323667, EP950191B1, DE69711083C0, KR 348698

Thermal Socket Design

Glitterprobe® (JP),™ (US)  
The update Glitterprobe® (JP),™ (US) has smoother surface to its utmost limit using Glittertechnology® (JP),™ (US).

- Ranging from 0.14mm to 1.27mm pitch
- Correspond to RF & High Current Test
